

London to Swansea Bike Ride

Raising funds for the Environment Centre, Swansea

On 12th August 2010 three of our trustees (and other dedicated supporters en route) will start their journey at the House of Commons in London. Using minor roads and cycle tracks they hope to cover the 250 miles back to Swansea in 5 days.

Please show your support for this epic ride, and help raise vital funds for the Environment Centre, providing environmental information, education and activities in South Wales. The Environment Centre is a local independent Registered Charity no. 1039378.
