

Swansea Climate Action Network

SwanseaCAN is an inclusive network of organisations and individuals, supporting awareness raising, campaigns and practical action in the Swansea area, to tackle the climate and ecological emergency.

The climate crisis and the cost of living crisis are two sides of the same coin; a direct result of a system that puts profits before people and the environment.

By coming together within our communities we can explore practical ways in which we can support each other during these difficult times and also put pressure on our local politicians to help in bringing about the urgent solutions we need.

We welcome all groups and individuals - campaign groups, eco-projects, community groups, schools, universities, unions, places of worship, green businesses etc.

We are a network of people and groups who believe in the wisdom of the crowd - be part of the dialogue and more importantly - the action.

Building Local Solutions Meetings
Last Wed of the Month, 6pm food 6.30 mtg start
Environment Centre, Pier St, SA1 1RY
